1. INTRODUCTION

Moodle (Modular Object Oriented Distance Learning Environment) is an online learning platform.

This manual describes the Moodle functions to make the most of this educational tool.

Here are some of the features of Moodle for student:

- Access via online, safely, to the educational content available to students.
- It enables collaboration and communication between teachers and students, using their own Web 2.0 channels (chat, forums, etc.).
- To help students in their learning task in an active way.

2 ACCESS TO PLATFORM

With you list in the course, you receive a direct access. Another way to access the course is to write the following address in the browser bar:

<https://3tindustry40training.eu/>

Enter your email and your password that you have received when you register. Click on the Log In button to enter the site.

2.1 Logout

IMPORTANT: To log out, you must click on the bar in the upper right of the page, where it appears the word LOG OUT.

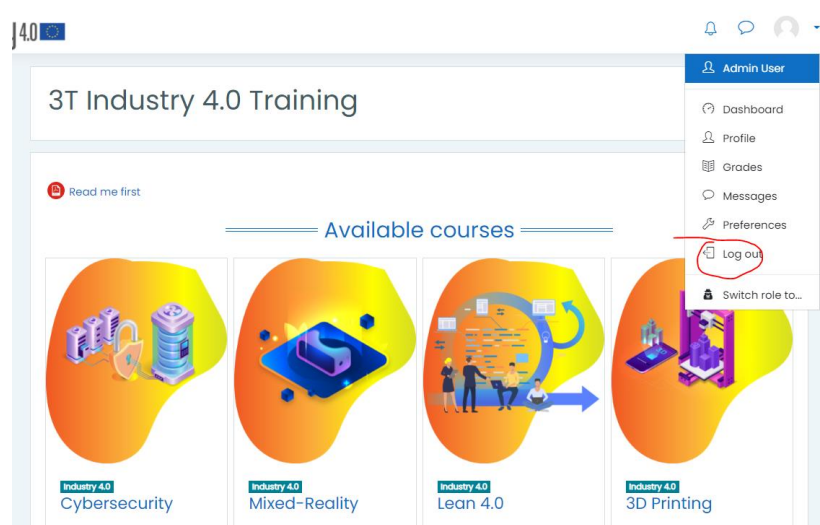

Figure 2: Log out

3. STRUCTURE OF THE MODULES

The work page of the course is divided into different areas in the left column. This column can be collapsed or expand if desired clicking here:

Figure 3: 3T Industry 4.0 Site home

Clicking in **Site home** allows to access to the courses panel

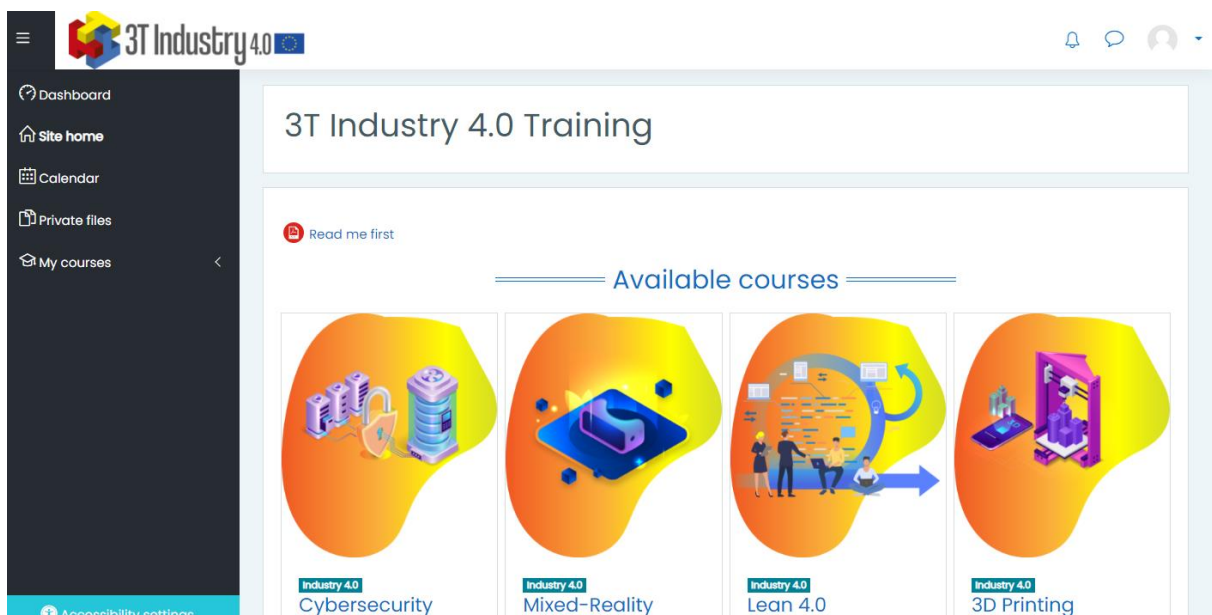

Figure 4: 3T Industry 4.0 available courses

You can enrolment in each course by yourself

Enrolment options

Self enrolment (Student)

No enrolment key required.

Enrol me

Figure 5: 3T Industry 4.0 self enrolment

The courses has a similar structure:

Artificial Intelligence

Dashboard > My courses > AI

- Announcements
- AI Forum
- AI quiz

Background

Technologies

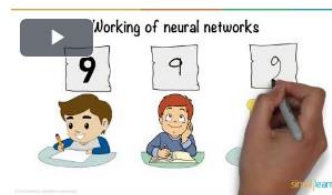

Figure 6: 3T Industry 4.0 course structure

You can access directly to the webinar in each area.

3.1 Forum

Forum: Discussion boards in Moodle are called Forums. You can use forums to discuss topics selected by your teacher or your own topics. When posting to a forum always assume that all other users in the course can view our posts. Once you have accessed the forum have the ability to:

- **Reply to a message:** to respond to a particular message only click on the Reply link
- **Add a new discussion topic:** Click on the "Add a new discussion topic" button. On the "add a new discussion" topic page, type a subject for your topic in the subject line. Next, click a reply to the forum in the Message field.
- Read the messages

3.2 Quizzes

Each course has a quiz. The quiz allows to measure your knowledge.

Cybersecurity

In your profile, you also can check your development in the courses

User profile

Dashboard > Profile

The screenshot shows a user profile page with a sidebar menu on the left and a main content area on the right. The sidebar menu includes options like 'Edit profile', 'Change password', 'Preferred language', 'Forum preferences', 'Editor preferences', 'Course preferences', 'Calendar preferences', 'Message preferences', and 'Notification preferences'. The main content area is titled 'Courses' and 'Details' and displays two course cards. The first card is for '3D Printing', which started on Wednesday, 17 March 2021, and shows a progress indicator of 0%. The second card is for 'Artificial Intelligence', which also started on Wednesday, 17 March 2021, and shows a progress indicator of 0%.
